

Dear Aztec Fans!

The 2019-20 season is just a few short weeks away – we're excited to get the season started on September 24th with our first official practice. We have had a really productive summer and will take full advantage of our remaining time; we have some alternative workouts scheduled in boxing classes, the SDSU Aquaplex and spin classes in addition to all of the time we spend on the court and in the weight room. We are thrilled to welcome talented freshmen Isabela Hernandez and Talia Sireni to our Aztec family. We look forward to you meeting our newcomers and getting to know them and their families.

Once again, we not only need you in the stands cheering for us during games, but we also need your support as we continue to enhance the student-athlete experience for our Aztecs. We encourage you to support your Aztecs by renewing your membership to the **Full Court Press**. You can renew your membership at one of the following membership levels: \$200, \$500 and \$1,000. We are really pleased to offer, for the third straight year, our customizable benefits package so you can make sure you are receiving the benefits that you want! We have continued to receive positive feedback from this format and are excited to offer a unique experience at Petco Park this September for our group.

The purpose of Full Court Press is to obtain operating funds for SDSU Women's Basketball while at the same time establishing a fun and unique social club for our most loyal supporters. In that spirit, we are always open to your input and suggestions for how we can attract new Full Court Press members and maximize the experience for our fan base.

We remain very grateful for your continued support of SDSU Women's Basketball and promise to maintain an elite standard for this program on and off the court. Your contributions and support make many things possible. We look forward to continue using these funds to enhance our student-athletes' experiences, recruit top national talent and compete against some of the best programs in the country. These experiences (including a five-day road trip to Hawaii this November)—and many more like it – are not possible without your unwavering support and loyalty. We are so grateful to have you involved with our program. Let's have a great 2019-20 season! Go Aztecs!

Sincerely,
