**UNIVERSITY PARK, PENN.**

### HUSKERS READY FOR NCAA CHAMPIONSHIPS

The No. 5 Nebraska men's gymnastics team is headed to University Park, Pa., to compete in the 2023 NCAA Championships. The Huskers will compete in the qualifying round on Friday, April 14, at Noon (CT) in hopes to advance to the NCAA Finals which are set for Saturday, April 15.

### LAST TIME OUT

NU is coming off a third-place finish at the Big Ten Championships, earning a 410.550, their third-highest score of the season. Ten Huskers qualified for the Big Ten Individual Finals.

Among the finalists, Taylor Christopoulos highlights the squad after taking the event title on vault (14.90), notably NU's first event champion since Anton Stephenson claimed the vault title in 2019. This also marks 11 all-time vault individual titles for the captain, passing assistant coach and 1984 Olympic Gold Medalist, Jim Hartung's record of 10 vault titles at Nebraska. Christopoulos was also named First-Team All-Big Ten and earned Big Ten Gymnast of the Year honors.

Senior Donte McKinney and freshman Nathan York earned Second-Team All-Big Ten accolades following third-place finishes. McKinney earned the bronze on high bar (14.475), while York finished third on floor (14.45).

### SCOUTING THE COMPETITION

NU will compete during Session I of the NCAA Qualifiers on Friday, April 14 at Noon (CT). The Huskers will look to be among the top-three teams in the first session to advance to the NCAA Finals. Session I consists of No. 1 Stanford, No. 4 Illinois, No. 8 Air Force, No. 9 Navy and No. 12 Army. Session II is set for 6 p.m. (CT) and consists of No. 2 Oklahoma, No. 3 Michigan, No. 6 Penn State, No. 7 Ohio State, No. 10 California and No. 11 Springfield.

Stanford looks to earn its fourth-consecutive national championship. The Cardinal are coming off their MPSF conference title win, finishing with a team score of 417.300.

The top three teams and the top three individuals on each event, including the all-around, not on advancing teams, will advance from each qualifying session to the championship finals.

# NEBRASKA MEDIA INFORMATION

The 2023 Nebraska men's gymnastics media guide is designed to assist the media in its coverage of Husker gymnastics. Additional information, including releases and photographs, may be obtained by contacting Maddie Lind in the Nebraska Communications Office at (402) 472-2263. Please take a moment to review the following policies and services that are intended to assist you in your coverage of Nebraska gymnastics this season. Thank you for your continued interest in collegiate gymnastics.

**Media Parking:** Parking for the media is in lot 58 on the south side of the Devaney Center. Handicap parking is primarily on the East side of the Devaney Center.

**Devaney Center Directions:** The Bob Devaney Sports Center is located on the west edge of the Innovation Campus. To reach it from the Lincoln Municipal Airport, turn right on Northwest 12th Street as you drive out of the airport. Northwest 12th Street becomes Cornhusker Highway, which intersects with 14th Street. Exit south on 14th Street off Cornhusker Highway. Travel to Military Avenue and turn left. Continue a half mile and enter the Innovation Campus. Take the first right turn before the Devaney Center and follow the access road to Lot 52 on the South Side of the arena. From Omaha's Eppley Airfield, follow the signs to downtown Omaha and I-480. Take I-480 west to I-80, then take I-80 west approximately 60 miles to I-180. Exit south on I-180, then exit east to Cornhusker Highway and follow the instructions above.

**Interviews:** All media requests for interviews with Nebraska gymnasts should be directed to Maddison Lind, office phone: (402) 472-2263; cell phone: (952) 992-9872 at least one day in advance. The best time for in-season interviews is after practice in the practice gym. Practice is typically held from 2 to 5 p.m. at the Devaney Center. For post-meet interviews, Nebraska gymnasts and coaches are generally available on the gym floor immediately following the presentation of team and individual event awards. The best time to reach Coach Chuck Chmelka is weekdays from 9 a.m. to 1 p.m. Interviews with Coach Chmelka should be coordinated through Maddison Lind in the Communications Office at (402) 472-2263 or (952) 992-9872 or by e-mail at [mind3@huskers.unl.edu](mailto:mind3@huskers.unl.edu).

**Media Services:** Pre-meet notes and media guides will be provided before each meet. Final results will be available following each meet in the press room. Press row for most Nebraska gymnastics meets is located on the south sideline of the gym floor. The Devaney Center media work room is located off the southwest corner of the floor level, across from the interview room.

**Husker Gymnastics on the Internet - Huskers.com:** Complete results, releases and statistics will be updated each week on the official athletic department home page at Huskers.com. Updated biographies for Nebraska gymnasts, along with current roster and schedule information is also available, along with other special features.

# MEN'S GYMNASTICS SCORING

## HISTORY:

Prior to 2005, both men's and women's gymnastics used the well-known scoring system with a top score of a "perfect 10." However, in 2005, gymnastics officials created a new scoring system for men's gymnastics. In this new system, there is no limit to the score a gymnast can achieve for his routine. The top performances in men's gymnastics right now are receiving scores in the 14s and 15s, and occasionally, the low 16s.

There are three components used in judging a men's gymnastics routine: difficulty, element groups and execution.

## THE DIFFICULTY SCORE:

There are nine countable skills, plus a dismount. Skill values range from A to H, with A being the easiest and H being the hardest. (A: 0.1, B: 0.2, C: 0.3, D: 0.4, E: 0.5, F: 0.6, G: 0.7, H: 0.8). Judges will add the values of the 10 skills together to get the gymnasts' difficulty score.

Example Routine: E(0.5) D(0.4) C(0.3) C(0.3) D(0.4) B(0.2) A(0.1) B(0.2) B(0.2) D(0.4) equals a difficulty score of 3.0.

## ELEMENT GROUPS:

There are four different element groups on each event and each group is worth 0.5. For each of the element groups that a gymnast fulfills, he receives 0.5. If all four element groups are fulfilled, a gymnast will receive 2.0.

## EXECUTION SCORE:

Each gymnast automatically starts with an execution score of 10.00. Judges can take the following deductions from that 10.00 score:

Small Error	0.1 (little step, small leg separation, slight knee bend, slight arm bend)
Medium Error	0.3 (big step, medium leg separation, medium knee bend, medium arm bend)
Large Error	0.5 (large leg separation, large knee bend, large arm bend)
Fall	1.0 (falling off apparatus)

The totals of these three components are added together to reach a start value:

Execution Score	10.0
Element Groups	2.0
+ Difficulty Score	3.0
= Start Value	15.0

If the gymnast had 0.9 points taken off for execution errors, the execution score would be 9.1 and the final score would look like this:

Execution Score	9.1
Element Groups	2.0
+ Difficulty Score	3.0
= Final Score	14.1

## WHAT TO LOOK FOR:

Though the scoring system is complicated, fans can still identify great routines without knowing everything about the scoring system. When watching a routine, be sure to look for:

**Good Form and Execution:** A gymnast should always look as though he is in complete control, even when performing the most difficult of skills. Good form in gymnastics includes pointed toes, straight arms and legs and a tightness throughout the body. Every movement should look planned.

**Strength Moves Held Long Enough:** On the still rings and on floor, the gymnast must stay in position for two seconds on each strength move (e.g. an iron cross).

**Height and Distance:** In tumbling passes, vaults and release moves, the gymnast should look as if he is exploding off the apparatus. On vault, the distance a gymnast travels from the horse is also a factor in his final score.

**A Stuck Landing:** On vaulting, dismounts, and tumbling passes on floor, the gymnast should end with a "stuck landing" -- he should not move his feet once they hit the ground. The gymnast is not allowed to lunge backward out of tumbling passes. (The women used to be able to do this without deduction, but it is now considered an error in women's artistic as well).

**Uniqueness of the Routine:** A great gymnast will perform a routine that looks different from the rest. It will have something special about it -- risky tricks, an artistic flair or skills that are simply unique from others performed in the competition.

# MEN'S GYMNASTICS EVENTS

## POMMEL HORSE

The gymnast must cover all three areas of the horse, the middle and both ends, while performing continuous circular movements interrupted only by the required scissor element. The only parts of the body that should touch the apparatus are the hands. The entire exercise should flow with a steady, controlled rhythm. Considered by many to be the most difficult of all men's gymnastics events, the pommel horse is also the most subtle. Each move is defined by complex hand placements and body positions. NCAA rules require gymnasts to include single leg work, circles, spindles and handstands, side and cross travels, kehres and wendeswings and a dismount. The pommel horse stands 42 inches high as measured from the top of the mat to the top of the apparatus.

## FLOOR EXERCISE

The entire floor area must be used during the exercise, which consists primarily of three to five tumbling passes performed in different directions. The new NCAA scoring system requires gymnasts to include non-acrobatic elements, acrobatic forward, backward and sideward elements and a dismount. The exercise must also contain elements of balance, strength, jumps and leg circles. The area of the floor exercise mat is 40 feet by 40 feet.

## STILL RINGS

The ring routine must include a swing to a handstand, swing to a strength element and a static strength skill. The exercise must also include kip and swing portions that may not lead to a held position. Examples of strength elements include a cross, an inverted cross or a planche. The rings should be absolutely still and in control at the end of each skill. The rings are 100 inches from the top of the mat.

## VAULT

Each individual vault is categorized in the Code of Points, the official text giving relevant value of each skill performed. During the pre-flight from the springboard to the horse, the body must maintain proper form, i.e. legs together and straight. During the second flight, from the horse to the landing, the gymnast's body must rise and show a complete body extension before landing. The landing should be firm, without extra steps, and in line with the horse. The men's vault stands 53 inches high. The runway is a maximum of 82 feet long.

## PARALLEL BARS

A parallel bar routine consists of swinging, flight and hold elements. The gymnast is required to execute swinging skills which originate from a support, a hang below the bars and an upper arm hang. Also required is at least one skill from the strength, leg swing and side bar element group. The parallel bars stand 70 inches high.

## HIGH BAR

The routine on the high bar consists exclusively of swinging parts without stops. The gymnast must execute at least one move in which he releases and re-grasps the bar, and must perform at least one giant with either his back to the bar or with an "eagle" grip in which the wrists are rolled outward until the thumbs are on the outside. The gymnast is also required to perform an "in bar" skill like a stalder circle. The bar is 100 inches from the top of the mat.
